📍 Siloam Springs AR

## EXPERIENCE

### Software Engineer

#### 100Devs

📅 10/2020 - Ongoing 📍 Los Angeles, Remote

Remote agency partnering engineers with clients in multi-person projects. Provides project management and a centralized training program.

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

### Web Developer

#### modernCase Designs

📅 Ongoing 📍 Remote

A small-sized firm focused on building static websites for small and medium-sized businesses.

- Created web applications and static websites for different clients across small and medium size businesses.
- Consulted clients on SEO and social media strategy. Worked with clients on design implementation of technologies and deployment of their website

### Process Operator

#### Mckee Foods

📅 10/2015 - 2020 📍 Gentry, AR

Food Baking Manufacturer who specialized in small sweet snacks delivered on an international scale.

- Helped track waste of products with use of Oracle Database information to pinpoint areas of production to improve waste reduction.
- Ensured process ran at optimum efficiency and cut waste while following company Standard Operating Procedures (SOP)
- Helped establish waste cutting and efficiency programs to cut ingredient usage by at least 5%.

## EDUCATION

### Informational Technology

#### Sibonga Community College

03/2010 - 03/2012

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in new technologies. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach or a startup with great ideas.
